

Exploratory Analysis Of RainFall Data In India For Agriculture

Brainstorm & idea prioritization

Share template feedback

1

Define your problem statement

Rainfall has been a major concern these days. Weather conditions have been changing for time being. It may lead to many disasters. Irregular heavy rainfall may lead to the destruction of crops, heavy floods that can cause harm to human life.

2

Brainstorm

Write down any ideas that come to mind that address your problem statement.

3

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. In the last 10 minutes, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

🕒 20 minutes

4

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.
